

First I rub my breasts through my shirt concentrating on my nipples. As i play with my tits I start to feel my pussy start to throb and my underwear begin to get a little wet. I then take off my shirt and bra and remain in my underwear. My breasts are 40 DD so I take one in my hand and lower my head so I can suck my own nipple while i play with the other one. now my pussy is starting to get really hot and wet I can even feel my juices seeping out of me. Now I switch and suck the other breast my little pink nipples are engorged and erect. I bite my lip to suppress moans.

By now my pussy is nice and hot and wet and my panties soaked. I slowly remove them getting comfortable in a silent room. I reach down and run my fingers up and down my wet slit. teasing myself making me want to touch my clit so bad. i finally begin to slowly circle my clit rubbing it. I rub slow at first gradually rubbing harder and harder. I continue to play with my nipples as well. it feels really good. occasionally I put a finger into my wetness bring it up to my clit. i rub aggressively until i finally cum. hot thick juices flows out of my pussy as my body shakes and cum pools beneath me
